

# AP Human Geography Summer Assignment

## Mehlville High School

### 2021-2022

*AP Human Geography is a course which is meant to illustrate the interconnectedness of our world, with a focus on the relationships between where we live and how we live. One of the best things you can do over the summer to help prepare for AP Human Geography is to become more familiar with where countries are in the world. Throughout the year we'll be making connections between people and place, but to do so, we must be familiar with where places are. This is something which we will not spend much time on during the school year, so the more familiar you are coming into the school year, the better it will be.*

**Directions:** Use the links below to access Seterra geography games. The main focus should be to learn where these places are. Keep working on them, over time, until you reach mastery. Keep a record of your high score for each game so that you know where to focus your efforts. Feel free to use the website or the app.
